BOARD TO OFFER ON-LINE PHARMACOLOGY COURSE

To assist dentists in meeting the COMAR 10.44.22, *“Proper Pharmacologic Prescribing and Disposal Continuing Education Requirement”*, the Board has been preparing an online training course which will be conveniently available to all of our licensees free of charge. A special thanks to Richard Wynn, Ph.D., who has so graciously provided the course content. Please also note that COMAR 10.22.44 regulation has recently been modified to better accommodate dentist licensees by incorporating an every other renewal cycle requirement with an effective date beginning 2015 renewal period. Once, the comment period ends and the regulation has been finalized, the Board will inform all dental licensees and certificate holders via e-mail. Please be sure to update your most recent email address with the Board. Thank you for your patience as the Board initiates this new educational mechanism.
