December 11, 2012

To: Laboratories Administration Test Submitters  
RE: StarLims/MyLims Database interface modification.

Dear Submitter:

We are hereby sending out notification of a minor modification to the online Starlims/MyLims Database interface and have identified your site as a user of the program.

The modification is located at the Test Order screen.

The Print Labels button at this screen has been changed to generate a labels report, only.

The newly added Packing Slip button replaces the previous functionality of the Print Labels button. It generates the Packing Slip report that is to be transmitted along with your submitted test samples and upon report display transmits the test orders to our database here at the Laboratories Administration.

Please forward this update information to your site's users of the program

If you need additional information or have any questions please contact the Office of Information Management Systems, Help Desk at: 410-767-3573.

We appreciate the continued opportunity to serve you.

Sincerely,

Office of Information Management Systems  
Laboratories Administration
