

Maryland Consortium on Coordinated Community Supports

Data Collection/Analysis & Program Evaluation Subcommittee

Larry Epp, Chair

October 20, 2022

Re-Cap: Mission

For the remainder of calendar year 2022, the primary mission of the Data Subcommittee is to provide data expertise to support the development of the first Coordinated Community Supports Partnership Call for Proposals (RFP), which will be issued during the first quarter of calendar year 2023.

Re-Cap: Key Activities

October-December 2022

1. Hold Subcommittee meetings.
2. Host public comment period.
3. Develop consensus on key data recommendations for the RFP and the program as a whole.
4. Coordinate with the Framework Subcommittee.
5. Present findings at future Consortium meeting.
6. Summarize findings in a written report  Consortium's report to the Maryland General Assembly (due December, 2022).

Re-Cap: Key Deliverables

to be produced by December 2022

1. Summary of public comments received on key questions.
2. Recommendations for key existing data measures and sources that could be used to calculate a baseline.
3. Recommendations for several key standardized data metrics that should be collected by all future grantees.
4. Recommendations for key data measures to quantify the impact of the Consortium and measure the overall success of initiative.

Potential Questions for Public Comment

Background: The Consortium on Coordinated Community Supports was created by the Maryland General Assembly to develop an integrated, holistic plan for prevention, treatment, and recovery for Maryland students with behavioral health needs and other related challenges. The Consortium is developing recommendations for a program that will award grants to Community Supports Partnerships across the state. Community Supports Partnerships will engage a wide range of community stakeholders to provide behavioral health and wraparound services for Maryland students. Partnership grants will be issued and administered by the Maryland Community Health Resources Commission.

The Consortium's Data Subcommittee is seeking public comment on key questions to guide its recommendations for the program. The Consortium's Framework, Design & RFP Subcommittee will seek public comment on other topics related to the program.

Potential Questions for Public Comment

1. What relevant behavioral health and education baseline data is currently available to measure the impact of the Consortium and grant-funded Community Support Partnerships?
2. Which standardized process and outcome measures for behavioral health and education should all grantees be responsible to collect and report?
3. How could program impact be measured at the individual student level for behavioral health and education?
4. Which behavioral health and education data sets or resources could the Consortium provide to help applicants develop their proposals?

Presentation by Dr. Samantha Reaves

School Health Assessment
and Performance Evaluation System

Possible future presentations

- Data platforms – student-level behavioral health outcomes, data-driven decision-making
- Youth Risk Behavior Surveillance Systems
- Substance Use Disorder programs (Robin Rickard)
- Measuring risk – Robert Balfanz
- Annie E. Casey researchers

Meeting Schedule

Thursday, October 20, 12:00-1:00 pm

Thursday, October 27, 12:00-1:00 pm

Thursday, November 3, 12:00-1:00 pm

Thursday, November 10, 12:00-1:00 pm

Full Consortium meeting: Tuesday, November 15, 2022
