No. 227

June 16, 2021

Maryland's Preferred Drug List – July 1, 2021

Generic vs. Brand Status on Maryland's Preferred Drug List

Maryland Medicaid's Preferred Drug List (PDL), encompassing over 1800 drugs, covers most of the generic versions of preferred multisource brand drugs without any type of prior authorization. If the prescription for a brand name drug is to be dispensed as written, the prescriber must complete and submit a Medwatch form (<https://mmcp.health.maryland.gov/pap/docs/Maryland%20Medwatch%20Form.pdf>). The State's clinical pharmacy team will review the Medwatch form and notify the prescriber whether the request for the brand name drug was approved or denied. The State will forward the Medwatch form to the FDA when appropriate.

The Office of Pharmacy Services (OPS) wants to alert you to changes in the exceptions to this rule that are included in the attached updated Preferred Drug List, effective July 1, 2021.

Please refer to our website for a complete list of the PDL at the following link:
<https://mmcp.health.maryland.gov/pap/pages/Preferred-Drug-List.aspx>

In an effort to give timely notice to the pharmacy community concerning important pharmacy topics, the Maryland Department of Health (MDH), **Office of Pharmacy Services (OPS)** has developed the **Maryland Medicaid Pharmacy Program Advisory**.

To expedite information timely to the pharmacy and prescriber communities, an email network has been established which incorporates the email lists of the Maryland Pharmacists Association, EPIC, CARE, Long Term Care Consultants, headquarters of all chain drugstores and prescriber associations and organizations.

It is our hope that the information is disseminated to all interested parties. If you have not received this email through any of the previously noted parties or via MDH, please contact the OPS representative at 410-767-1455.

Brand Preferred over Generic

Not all Generics are Preferred. * In order for the State to enhance the benefit of the PDL, in some instances when manufacturer rebates are taken into consideration, the multisource brand name drug is Preferred over its generic equivalent because the branded drug is more cost effective to the State than its generic counterpart. When the brand name drug is Preferred, no Medwatch nor authorization is needed. Enter a DAW code of 6 on the claim to have it correctly priced. If any problems are encountered during the on-line claim adjudication of Preferred Brands, contact Conduent's 24-hour Help Desk at 800-932-3918 for additional system overrides related to the use of the correct DAW code (For example, when there is other insurance). Please maintain this Advisory as a reference in addition to any updates that follow. **Please note there was no additions or deletions from the last update on May 1, 2021 and can be found [here](#).**

Preferred BRAND	Non-Preferred GENERIC
Bethkis (inhalation)	tobramycin powder (inhalation)
Kitabis Pak (inhalation)	tobramycin pak (inhalation)
Banzel Suspension (oral) ³	rufinamide suspension (oral) ³
Carbatrol Capsule	carbamazepine ER capsule
Depakote Sprinkle Capsule	divalproex sprinkle capsule
Gabitril Tablet	tiagabine tablet
Sabril Powder Packet ³	vigabatrin powder packet ³
Sabril Tablet ³	vigabatrin tablet ³
Tegretol Suspension (oral)	carbamazepine suspension (oral)
Trileptal Suspension (oral)	oxcarbazepine suspension (oral)
ProAir HFA (inhalation)	albuterol HFA (inhalation)
Pulmicort 1 mg Respules (inhalation)	budesonide 1 mg suspension (inhalation)
Humalog Junior Kwikpen ²	insulin lispro Junior Kwikpen ²
Humalog Mix 75/25 pen ²	insulin lispro mix pen ²
Humalog pen, vial ²	insulin lispro pen, vial ²
Novolog cartridge, pen, vial ²	insulin aspart cartridge, pen, vial ²
Novolog Mix 70/30 pen, vial ²	insulin aspart protamine/insulin aspart pen, vial ²
Cellcept Suspension (oral)	mycophenolate mofetil suspension (oral)
Copaxone 20 mg/ml (subcutaneous)	glatiramer 20 mg/ml (subcutaneous)
Suboxone Film	buprenorphine/naloxone film
Prevacid Solutabs ODT	lansoprazole ODT
Adderall XR Capsule	amphetamine salt combo ER capsule
Concerta Tablet	methylphenidate ER capsule
Focalin XR Capsule	dexmethylphenidate XR capsule

¹ Unless the Program has established clinical criteria for the drug. Clinical criteria can be found [here](#).

² Both brand and generic preferred

³ Is a non-preferred drug on the PDL and will require a prior authorization by the prescriber

cc-Clinical criteria can be found at the link [here](#)

ql- Quantity limits can be found at the link [here](#)

All lowercase letters = generic product.

Leading capital letter = brand name product.

Office of Pharmacy Services
Medicaid Pharmacy Program
Preferred Drug List
 Effective Date: 7/1/2021

Only drugs that are part of the listed therapeutic categories are affected by the Medicaid Preferred Drug List (PDL). Therapeutic categories not listed here are not part of the PDL and will continue to be covered as they always have for Maryland Medicaid participants.

Note: Brand names listed in parentheses are only listed as a reference. For most multi-source products, the generic products are usually preferred, and the branded innovator product is non-preferred. If a generic product is non-preferred, the corresponding brand product is also non-preferred except where specifically noted as “**(generic only)**”. PDL products that are new to market require prior authorization until they are reviewed. **Changes in the Preferred Drug List are highlighted in yellow.**

ANALGESICS

Drug Class	Preferred	Requires Prior Authorization
Analgesics, Narcotics (Long Acting) All drugs in this class are subject to review through the Opioid Drug Utilization Review Program .	fentanyl patches (All strengths except 37.5mcg, 62.5mcg, 87.5mcg) ^{cc,q1} morphine sulfate SR (MS Contin) ^{q1} Xtampza ER	<i>buprenorphine patch (Butrans)^{q1}</i> <i>fentanyl 37.5mcg, 62.5mcg, 87.5mcg patches^{cc,q1}</i> <i>hydrocodone ER (Hysingla ER, Zohydro ER)^{cc,q1}</i> <i>hydromorphone ER (Exalgo)^{q1}</i> <i>methadone (Dolophine)^{q1}</i> <i>morphine sulfate ER (Avinza)^{q1}</i> <i>morphine sulfate ER (Kadian)^{q1}</i> <i>oxycodone ER (Oxycontin)^{q1}</i> <i>oxymorphone ER (Opana ER)^{q1}</i> <i>tramadol ER (Conzip, Ryzolt, Ultram ER)^{q1}</i> <i>Belbuca^{q1}</i> <i>Morphabond ER</i> <i>Nucynta ER^{q1}</i>
